PROFILE

Full Stack Web Developer with over 2.5 years of professional experience designing and building scalable, production-grade web applications. Core expertise spans Laravel, PHP, MySQL, and RESTful API development, complemented by strong frontend engineering skills in React, Tailwind CSS, and Daisy UI. Currently broadening full-stack capability across the modern JavaScript ecosystem, with a growing focus on Next.js and Node.js for building performant, server-rendered applications alongside the existing Laravel and React skill set. Combines a solid academic foundation in Computer Science with hands-on experience delivering commercial web platforms, business directory systems, and eCommerce solutions.

TECHNICAL SKILLS

Frontend: HTML5 • CSS3 • Bootstrap 5 • Tailwind CSS • DaisyUI • JavaScript (ES6+) • jQuery • React.js • Next.js

Backend: Laravel • PHP • CodeIgniter • Node.js • Express.js • MySQL • MongoDB

Tools: Git • Postman • Thunder Client

PROFESSIONAL EXPERIENCE

Frontend Designer → Laravel Developer — Creativeitem Jan 2023 – Apr 2026

Joined as a Frontend Designer and gradually transitioned into Laravel development. Worked across HTML, CSS, Bootstrap, JavaScript, PHP, Laravel, CodeIgniter, and MySQL while contributing to commercial web applications, business directory platforms, and eCommerce solutions.

- Built and maintained commercial web applications end to end, from UI to backend logic.
- Contributed to business directory and eCommerce platforms used in production.
- Progressed from frontend design work into full Laravel backend development.

React & MERN Stack Developer — Personal / Self-Directed Projects 2026 – Present

Focused on modern frontend development with React, Next Js, Tailwind CSS, and Framer Motion. Actively building MERN stack projects to strengthen expertise in Node.js, Express.js, and MongoDB.

- Designed and developed interactive UIs with React, Next Js, Tailwind CSS, and Framer Motion.
- Built full-stack MERN applications to deepen Node.js, Express.js, and MongoDB skills.

FEATURED PROJECTS

Kidora — Modern eCommerce Application

A modern eCommerce web application built with Next.js, featuring a responsive user interface, product catalog, category-based browsing, shopping cart functionality, and optimized performance using server-side rendering and modern React architecture.

Tech: Next.js, React.js, Tailwind CSS, DaisyUI, MongoDB

Live: <https://kidora-beige.vercel.app/>

Zap Shifting — Parcel Delivery & Logistics Platform

A parcel delivery and logistics management platform with customer, rider, and admin dashboards, featuring parcel tracking, online payments, and role-based access control.

Tech: Node.js, Express.js, MongoDB, Firebase Authentication, JWT, Stripe, React.js, Tailwind CSS

Live: <https://zap-shift-e8a2f.web.app/>

Atlas — Business Directory & Listing Platform

A Laravel-powered business directory and listing platform featuring advanced search, location-based discovery, bookings, subscriptions, and business management tools.

Tech: *Laravel, PHP, MySQL, Bootstrap, jQuery*

Live: <https://demo.creativeitem.com/atlas-laravel/>

Elevate — Multi-Vendor eCommerce Platform

A modern multi-vendor eCommerce platform with product management, secure checkout, order tracking, payment gateways, and vendor management features.

Tech: *Laravel, PHP, MySQL, Bootstrap, JavaScript*

Live: <https://demo.creativeitem.com/elevate/fashion/>

EDUCATION

BSc in Computer Science and Engineering

World University of Bangladesh (WUB) — Completed September 2026

Undergraduate Thesis:

Predicting Employability of CSE Graduates in Bangladesh Using Machine Learning

Developing an interpretable machine learning model to predict the employability of fresh CSE graduates based on academic performance, technical skills, internships, projects, certifications, and job-search behavior.
